

Description

The LongPlex multiplexing kit box 2 contains reagents to be used in conjunction with the LongPlex multiplexing kit box 1 (301303) to simultaneously fragment and index DNA to generate 8-10 kb fragments.

Kit configuration

Configuration

#	Component	Part number	Qty	Color	Volume
1	3X Coding Buffer	101284	1	Violet	1500 µL
2	X Solution	101323	3	Black	750 µL

Quantities

96 reactions

Storage and handling requirements

Product should be stored ambient between 15 to 25 °C.

Packaging information:

- Type: Box
- Dimensions: 3.5"L X 2.8" W X 2.8"H

Refer to protocols for additional recommendations for product handling.

Shelf life

Refer to expiration date on product label.

Intended use

Research use only. Not for use in diagnostic procedures.

Support

For additional product and technical information, such as safety data sheets (SDS) or procedures, visit our [website](#). For region-specific SDS, search the [SDS library](#).
